

Congressman Howard Coble Visits Tiger Controls, Inc. in Greensboro, NC

(August 12, 2014) Greensboro, NC— Congressman Howard Coble (R-NC-06) visited Tiger Controls in Greensboro to see firsthand the skilled jobs and business that the production of U.S. Navy aircraft carriers brings to the region. Tiger Controls supplies electrical services for U.S. Navy aircraft carriers.

Tiger Controls is part of a vital defense industrial base consisting of more than 2,000 small, mid-sized, and large businesses from 43 states that provides parts and services for U.S. Navy aircraft carriers.

During his tour, Congressman Coble met with the employees at Tiger Controls to discuss the unique skills they contribute to the industrial base that supplies parts to the U.S. Navy aircraft carrier program.

“It was a pleasure to meet the employees at Tiger Controls and learn more about how their work contributes to constructing our Navy’s aircraft carriers. It was a great to see firsthand the skilled work here in Greensboro that goes into maintaining our Navy’s strength around the world. These local businesses are essential to maintain our overall economy, jobs and national security,” stated Congressman Coble.

“Building new carriers every five years and undertaking maintenance on a regular schedule preserves the fleet at its required operational level of 11 carriers and keeps the industrial base sustainable and strong. Today we got the opportunity to talk with Congressman Coble about why it is so critical to our

local jobs and businesses and our national security,” stated Jack Craven, Operations Manager and part owner of Tiger Controls, Inc.
